Entrodex 200 gr. € 17,00 650 gr. € 35,00 1.5 kg. € 65,00

A soluble pro biotic which contains guaranteed viable friendly bacteria- vitamins A,D,B, complex-electrolytes and a source of dietary energy from soluble carbohydrates. Use Entrodex regularly at 5 grams per litre of fresh clean drinking water and see the difference that makes all the difference! Entrodex can be administered via the drinking water or added to moist food.

200 克. 17,00 欧元 650 克. 35,00 欧元 1.5 公斤. 65,00 欧元

Entrodex 一种可溶性微生物，含有可靠的活“有益菌”

- 维生素 A、D、B、合成电解质及从可溶性的碳水化合物中而来的食物能量。定期使用 Entrodex 的方法是：在每公升的新鲜干净的饮水中加入 5 克 Entrodex，用后明显看出比用前完全不同的鸽子状况。Entrodex 既可以加入饮水中，也可以加入湿润的鸽食中。

。

Ascorbivite

650 gr. € 19,00

Vitamin C. Soluble Concentrated Dietary Booster. It can be used to good effect in conjunction with Entrodex 5 grams per litre of fresh clean drinking water or added to food 5 grams per 500 grams of

650 克. 19,00 欧元

Ascorbivite 是维生素 C 可溶性浓缩食物增强剂。

与 Entrodex 合用可以起到更好的效果。用法：每公升新鲜干净的饮水中加入 5 克 Ascorbivite，或每 500 克食物中加入 5 克 Ascorbivite

Creatine

100 pills. € 8,00 500 gr. € 19,00

Pure BPh Quality. The finest quality Creatine in pure form is administered by adding 2 grams to 500 grams of food or in 1 litre of water. Later in season you can raise it to 5 grams daily.

100 片. 8,00 欧元 500 克. 19,00 欧元

本产品“肌酸”是绝对的高品质 BPh 质量，其使用发法是：

每 500 克的鸽食（或 1 公升饮水）中加入 2 克的肌酸。在最后的比赛期间，用法可每天增加到 5 克。

Carbosol

500 gr. € 19,00

Super Carbosol is an ideal source of additional energy during the racing season. In practice it has been proved that Carbosol will raise your racing result to the limits. Use 20 grams per litre of fresh drinking water

500 克. 19,00 欧元

超级 Carbosol 在赛季里是理想的增加能量的用品。

实践证明 Carbosol 会最大限度地提高比赛成绩。用法：每公升新鲜引水中加入 20 克 Carbosol

MVS-30

200 gr. € 11,50 650 gr. € 28,00

A multi-vitamin & mineral food supplement, rich in Calcium, Amino acids & Plant extract with added Brewers yeast. MVS-30 is particularly recommended for use during period of high nutrient demand, for example preparation and recovery from racing, during moulting and breeding.

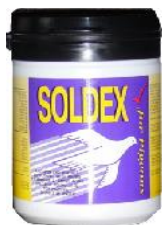

200 克. 11,50 欧元 650 克. 28,00 欧元

MVS-30 是多种维生素和矿物质的食品添加剂，富含钙、氨基酸和植物提取液，并加入了酿造酵母。尤其推荐在需要高营养期间使用 MVS-30。比如在准备期，比赛后的恢复期，换毛和哺育期推荐使用 MVS-30

Soldex

100 gr. € 10,00

Soldex offers pigeons fanciers a complete soluble multi-vitamin & mineral supplement which includes 5000mg³ Calcium Gluconate. The Calcium in Soldex is further supported by the addition of other minerals and trace elements and 300 mg of Vitamin C⁴. Carnitine is included in the formula to support energy metabolism. Use regularly 1 gram in 1 litre fresh drinking water (can also be added to food).

100 克. 10,00 欧元

Soldex 提供鸽友们一个完全的可溶性的多种维生素和矿物质的添加剂，它包含 5000 mg³ 的葡萄糖酸钙。因加入了其他的矿物质、微量元素和 300 mg 的维生素 C⁴，Soldex 中的钙得到了进一步的加强。因含有肉碱，促进了能量的代谢。

用法：定期在 1 公升的新鲜饮水中加入 1 克 Soldex（也可加入食物里）

Ca-HMB

100 pills. € 10,00 400 gr. € 46,00

This is a most unique blend of ergogenic nutrients. This unique supplement contains; Calcium* HMB*.

This combination provides a significant synergistic effect, for example, together the components of Ca-HMB will increase endurance performance. Assist in sparing the muscles. Potentially increase the efficiency of the metabolic pathways of providing energy fuel to the muscle cells. Support the maturation process of muscles.

Use throughout the racing season 2 grams in 1 litre water or on the food.

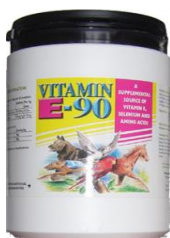

100 片. 10,00 欧元 400 克. 46,00 欧元

钙-HMB 是极特殊的混合高能营养添加剂。这个特别的添加剂含有：钙 * HMB*。这种结合使其效果更加突出，比如 Ca-HMB 成分会增加耐力，帮助保持肌肉的力量，极大地增强了肌肉细胞能量供给的新陈代谢功能，帮助肌肉成熟。用法：整个赛季中使用，1 公升水（或在食物）中加入 2 克 Ca-HMB

Vitamin E-90

200 gr. € 15,00 650 gr. € 28,00

Vitamin E-90 contains 90mg/g of vitamin E from dl-alpha Tocopheryl, The alpha form being the purest and most biologically available source of the vitamin. Feed twice weekly at 5 gram per 500 gram of food.

200 克. 15,00 欧元 650 克. 28,00 欧元

维生素 E-90 含有从 dl-alpha Tocopheryl 中来的 90 mg/g 的维生素 E，alpha 形式是最纯最具生物特性的维生素的来源。

用法：每周 2 次，500 克鸽食中加入 5 克 Vitamin E-90

Super oil

500 ml. € 16,00

Super oil contains wheat germ oil naturally the highest in Vitamin E & EFA Gamma Linolenic Acid. The oil combine long and medium chain triglycerides. Super oil can be used as a pre and post race energy source. It is particularly recommended during the moulting and breeding periods and as nutritional support during periods of sickness. Better oil you can not find on the market. Use 5 mls to the 500 gr. of food.

500 毫升. 16,00 欧元

超级油含有麦牙油，最富含天然维生素 E 和 EFA Gamma 亚麻酸。这种油结合了长和中链甘油酸酯。超级油可以作为赛前和赛后的能量来源使用，尤其建议在换毛和哺育期使用超级油。生病时，可以作为营养补充。这是你在市场上买不到的好油。
用法：500 克的食物里加入 5 毫升超级油

Whey powder 80%

1.0 kg. € 24,00

Protein is very important during periods of grow and recovering after the flight. During the moulting season it will give the pigeons better feathers. During breeding it gives the youngsters more strength to develop. 20 gr. on 1 kg. food.

1.0 公斤. 24,00 欧元

乳清粉 80%- 在成长和飞翔后的恢复期，蛋白质是非常重要的，换毛季节，蛋白质会使鸽子长出更好的羽毛。在哺育过程中，蛋白质会使幼鸽更好的发育成长。
用法：1 公斤的食物里加入 20 克乳清粉。

Endo & Ecto

10 ml. € 12,50

Against Endo and Ecto Parasites. Put 1-2 drops on naked skin and it will make sure that all the parasites are gone for about 3 month.

10 毫升. 12,50 欧元

防止内外寄生虫。用法：在裸露的皮肤上用 1-2 滴，则可保证 3 个月没有寄生虫。

Trichomonacide

30 ml. € 7,00

Trichomonacide is the natural way against trichomonade (cancer) and cleans the airways. Dose: during racing season 1x per week 1 drop in the throat, or 1x per week 3 pipettes on 200 gram of food. CAREFUL. It gives yellow spots on clothes that won't go off.

30 毫升. 7,00 欧元

毛滴虫剂 是用自然之法防治毛滴虫（毒瘤），并清理通道。
剂量用法：比赛季节，每周一次，在喉咙里放入一滴，
或每周一次在 200 克食物里 加入 3 个吸液管。使用时要小心，
落在布上的黄色斑点无法去除。

Blood oil

250 ml. € 20,00

Composed oil for the health of homing pigeons and birds. Use in racing season 1 cure of 5 days per month. Also 1 day before and after the race and 1 day in the middle of the week. Pigeons which came in too late 1 cure of 3 days. Breeding 1 cure of 5 days before the coupling. Dose 10 ml. per 1 kg. of food.

250 毫升. 20,00 欧元

血油 是信鸽和鸟类的健康用品。比赛季节使用。每月使用一个疗程，
一个疗程为 5 天。并且比赛前一天和比赛后一天及本周中间的一天也用血油。
回来太迟的鸽子，可按 1 个疗程 3 天使用血油。配对前的哺育期 1 个疗程为
5 天。剂量：每公斤鸽食放 10 毫升血油。

Japanse Go

500 ml. € 29,00

The most recent developments of muscle strengthening out Japan. Gamma Oryzanol is made of rice. It is used some time now within horseracing and the results are very good. The profit of Gamma Oryzanol is that compared to Creatin and Ca-HMB you don't have to do that many training to get the muscles strengthened. 10 ml. in 1KG food 4 x a week.

500 毫升. 29,00 欧元

“日本高” 是日本最新开发的肌肉增强剂。该产品由大米制成。
现在赛马有时使用这种产品，其效果非常好。
它可以和肌酸和 Ca-HMB 功效媲美。使用该产品后，
不用做很多训练就可以得到肌肉的增强。用法：每周 4 次，
1 公斤鸽食里加入 10 毫升 Gamma Oryzanol

Recovery Superior

150 g € 18,00

Revolutionary progress for recuperation after racing. This very special protein can make a preparation in a couple of hours. Not like the traditional protein that will take sometimes more than two days. The advantage is that you can start up straining very soon. So not to much necessary resting for our pigeons. This product was till now only available in human top sport like tour de France and top soccer teams in the world like Barcelona, real Madrid and Manchester united.

Doses: 5 gramt on 1-2 litre water directly after racing

150 克 18 欧元

高级体力恢复剂 赛后恢复体力的革命性产品，这种特殊的蛋白可在几个小时内恢复体力，而传统的蛋白有时需要 2 天时间。该药的优点是能很快地启动体力，不需太多的休息时间。该产品目前仅用于大赛事的运动员上，比如：法国拉力赛、世界著名足球队：巴塞罗那队、真人马德里、曼联等使用该产品。
用法：每 1-2 公升水放一小袋，比赛归巢后即。
